## HELP FOR MRS. PARNELL.

Contributions Coming from All Quarters—  
 What Her Son Says.

NEW YORK, Nov. 19.—Since the story of Mrs. Parnell's distress was sent out, money has been pouring in upon her from all sides. It looks now as though she would not only be secure from further want, but that the sum of the entire mortgage on the place will be quickly raised. James Slewin, who acts as overseer at the place, said today that half her destitution had not been sold. Referring to the statement that he should have been able to raise enough on the farm to keep the house, Slewin said the fact is that he had to sell all the tools to buy food and had not sold the wood to pay for the winter's fuel. Only one storekeeper in Bordentown, Slewin said, would trust Mrs. Parnell for a cent's worth of goods.

## Mr. Parnell Surprised.

LONDON, Nov. 19.—Parnell says he was greatly surprised when he read in the newspapers the reports which spoke of the poverty of his mother, and he immediately cabled his agent in New York to supply her with funds. He had no reason to suppose his mother was pressed for money, as on previous occasions when she desired help she had always applied for and obtained prompt remittance of the sum required. He had received a number of letters from her recently, and in none of them did she complain of want of money. He did not suppose there was any danger of the foreclosure sale of her estate, as years ago he instructed his American agents to guard against this by necessary advances if required. His mother had always declined to reside anywhere but in America.

## THE FOSTER-WILLARD FIGHT.

The Iowa Seceder on the Result of the Recent Elections.

NASHVILLE, TENN., Nov. 19.—Mrs. J. Ellen Foster, president of the Iowa state union, W. C. T. U., said to a reporter tonight that she had had no conference with any members since she left Chicago, but she had been greatly encouraged by the warm expressions of approval and support which had come to her from all parts of the country. She says the new provisional committee will take steps to gather into the central organization women who wish to carry on genuine temperance work without reference to any political party organization. "We shall not," she said, "go into party building or party smothering business. A year ago, added Mrs. Foster, "a sub-committee of the national executive committee, with Miss Willard as chairman, said they would come and hoped to float Iowa out of the dry dock of republicanism into the broad sea of national prohibition. I am unwilling to interpret Miss Willard's snub, but is the defeat of the republican party in Iowa to be deemed by her desirable, and the repeal of the prohibitory law the result? The ship Iowa will float into the ranks of whisky and beer, and the groans of women and the sobs of little children will mingle with the shouts of the demons of the still."

## The Knights and the Land.

ATLANTA, GA., Nov. 19.—The convention of the Knights of Labor to-day went into committee of the whole on the land question. The following resolution was adopted: "That land, including all natural sources of wealth, is the heritage of all the people and should not be subject to speculative traffic. Occupancy and use shall be the only title to the possession of land. Taxes upon land should be levied upon the full value for use, exclusive of the improvements, and should be sufficient to make for the community all the unearned increment."

When the question of the order taking part in political elections came up, the following recommendations of the general executive board were endorsed: "That the general executive board be given power to take the report of the committee on legislation, examine it in detail and publish to the order from time to time such information as will be of benefit to them in voting for different candidates for legislative honors, and also to recommend to the order such action as they may deem wise."

## The Secret Died With Her.

CHICAGO, Nov. 19.—It has been discovered that Blanche Douglas, the notorious woman who testified at the trial of the Malley brothers at New Haven for the murder of Jennie Cramer some years ago, which created almost a national sensation, died in one of the lowest dives of this city last Thursday. With her death goes all hope of the fate of Jennie Cramer, as aside from her, nobody knew the facts, unless the two Malleys, and they are not likely to say anything about it.

## Canada Objects to the Bill.

OTTAWA, NOV. 19.—Gen. Sir Frederick Middleton has left here to look into the coast defenses of British Columbia. There are only about three hundred there now. Great Britain desires to put an increased force there and charge the expense to Canada. This Canada objects to, and Middleton goes to look over the ground with a view to making a recommendation in regard to the matter.

## The Fort Pierre Reserve.

PUEBLO, S. D., Nov. 19.—There is promise of other complications in the Fort Pierre land trouble. The citizens think they have discovered that the land next to which they class as a townsite is a school section, and on that score are taking up land and erecting buildings thereon. Indians and squawmen had taken up the land in secret and are trying to make trouble. They threaten to tear the buildings down.

## Wanted by the Britons.

MILWAUKEE, Nov. 19.—Options on six

flouring mills and all the grain elevators in this city, except those owned by the St. Paul road, are reported to have been secured for an English syndicate. The agent declines to give the figures.

## Withdraw from the Conference.

WASHINGTON, Nov. 19.—At the marine conference to-day, Admiral Vile, of Chile, announced that he had been requested by Captains Gama and Maurity, the delegates from Brazil, to say that in view of the present condition of affairs in their country, they would no longer sit in the conference.

A special from Mexico, Mo., says: G. C. Collins, a prominent farmer of this county, was shot and killed while asleep in bed. Mrs. Collins was asleep in the same bed. Before the killing the house was robbed. The affair is surrounded with mystery, and all sorts of rumors are afloat. There has been trouble in the family for some time and interesting developments are expected.

## Unsurpassed in the World.

The vestibuled trains of the Chicago, Milwaukee & St. Paul railway, running daily between St. Paul and Minneapolis and Milwaukee and Chicago, are the perfection of modern railway equipment, and are unsurpassed in the world. They consist of elegant day coaches, Pullman's latest and best sleeping cars and the finest dining cars in the country. These trains are lighted by electricity and heated by steam, and afford to the traveler every comfort and convenience to be had at the very best hotels. All classes of tickets are honored on these trains and the rates are no higher than by other lines. It is for this reason that discriminating travelers patronize this company and insist that their tickets read over its line, as they naturally want the best service for their money.

## The Verdict Unanimous.

W. D. Salt, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of rheumatism of ten years' standing. Abraham Harte, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my twenty years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only half a dollar a bottle at R. S. Hale & Co.'s drug store.

It is astonishing how rapidly the feeble and debilitated gain strength and vigor when taking Ayer's Sarsaparilla. For what are called "broken-down constitutions," nothing else has proved so effective as this powerful and perfectly safe medicine.
